

CAMPEY™

BM50 Verti-Cutter

The Campey BM50 Verti-Cutter is a professional scarifier with fixed blades. Due to the fixed blade system, it does not require the complete disassembly of the transmission and rotor, but only of the worn blades. The high performance rotor guarantees excellent work in all circumstances, even when the cutting edge of the blade is not in optimal condition. In the standard version the blades are made of HARDOX material with a thickness of 3mm and spaced 30mm apart.

*Optional 2mm and 3mm tungsten tipped blades available.

Specification

Model	BM50 - 1600	BM50 - 1800
No. of blades	96	104
Working width	1.60m	1.80m
