Campey Australasia will exhibit at ASTMA 2027

Through local dealer in Australia Turfmate and Mexted Sports Turf dealer for New Zealand, customers across the region can now access the high-performance machinery and service for which Campey is known for worldwide.

At ASTMA 2027, we will showcase established favourites and new additions designed to tackle turf maintenance challenges on natural sports pitches and golf courses. Campey Turf Care are pioneers in developing machinery and equipment to meet the different cultural turf care demands across the world.

The range includes the exclusive Campey™ Speedresser unique in its design for efficient surface renovation and dressing work.

Alongside it, the matchless Martin Lishmann Sprayer delivers exceptional performance for crop protection and nutrition programmes, providing a practical way to apply liquid treatments across large areas of turf and varied terrain.

Once treatments are down, Campey provide the tools to help greenkeepers and groundsmen work materials evenly into the turf, saving time while improving the finish of the playing surface. The Campey™ UniRake lifts and clears loosened material from the surface. It is ideal for preparing a pitch or fairway for overseeding or renovation, and for keeping playing surfaces clean and consistent through a busy season.

For deeper surface work, the Campey™ Uni-Scratch scarifier tackles thatch and surface debris. By opening up the turf, it helps air, water and nutrients reach the root zone and encourages healthy, even growth, making it a valuable tool for both sports pitches and golf course surrounds. Campey brushes, rakes and drag mats complete the line-up, levelling and smoothing surfaces and working dressings in evenly, leaving them true and ready for play.

Export sales manager Nick Brown, who leads Campey Australasia, will attend with our dealer network to explain how we work and offer practical advice on your turf maintenance needs. Visitors will be able to see the machines up close, ask

Campey Turf Care Systems is one of world's largest independent sports turf and ground care machinery suppliers, distributing innovative sports turf maintenance equipment. Over the years Campey has have earned a reputation for offering practical advice and superb aftercare service. The company acts as a new equipment importer for some of the most respected grounds care machinery manufacturers including Dakota, Imants, Koro, Campey, Vredo, Foley Air 2G2, BellonMit, and Omarv. The company also has a thriving used machinery business and a subsidiary company, Tines Direct, which supplies replacement tines, blades, and replacement parts for a wide range of turf care machinery.

questions about how each one fits into a year-round maintenance programme, and discuss which combination of equipment best suits their site.

By working closely with dealers and customers and investing in export development, Campey has earned the trust of greenkeepers and groundsmen worldwide, supporting natural, effective ways to rejuvenate soil.

We look forward to welcoming you at our stand on the Gold Coast in June 2027.
